This document and translations of it may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation may be prepared, copied, published, and distributed, in whole or in part, without restriction of any kind, provided that the above copyright notice and this section are included on all such copies and derivative works. However, this document itself may not be modified in any way, including by removing the copyright notice or references to TM FORUM, except as needed for the purpose of developing any document or deliverable produced by a TM FORUM Collaboration Project Team (in which case the rules applicable to copyrights, as set forth in the [TM FORUM IPR Policy](#), must be followed) or as required to translate it into languages other than English.

The limited permissions granted above are perpetual and will not be revoked by TM FORUM or its successors or assigns.

This document and the information contained herein is provided on an “AS IS” basis and TM FORUM DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY THAT THE USE OF THE INFORMATION HEREIN WILL NOT INFRINGE ANY OWNERSHIP RIGHTS OR ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

TM FORUM invites any TM FORUM Member or any other party that believes it has patent claims that would necessarily be infringed by implementations of this TM Forum Standards Final Deliverable, to notify the TM FORUM Team Administrator and provide an indication of its willingness to grant patent licenses to such patent claims in a manner consistent with the IPR Mode of the TM FORUM Collaboration Project Team that produced this deliverable.

The TM FORUM invites any party to contact the TM FORUM Team Administrator if it is aware of a claim of ownership of any patent claims that would necessarily be infringed by implementations of this TM FORUM Standards Final Deliverable by a patent holder that is not willing to provide a license to such patent claims in a manner consistent with the IPR Mode of the TM FORUM Collaboration Project Team that produced this TM FORUM Standards Final Deliverable. TM FORUM may include such claims on its website but disclaims any obligation to do so.

TM FORUM takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this TM FORUM Standards Final Deliverable or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Information on TM FORUM's procedures with respect to rights in any document or deliverable produced by a TM FORUM Collaboration Project Team can be found on the TM FORUM website. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this TM FORUM Standards Final Deliverable, can be obtained from the TM FORUM Team Administrator. TM FORUM makes no representation that any information or list of intellectual property rights will at any time be complete, or that any claims in such list are, in fact, Essential Claims.

1. Overview

Component Name	ID	Description	ODA Function Block
Lead and Opportunity Management	TMFC036	Lead and Opportunity Management provides the necessary functionality during pre-sales stage in terms of: lead and opportunity capture, sales qualification, reporting, sales pipeline management.	Party Management

TMFC036: Lead and Opportunity Management

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM business activities

eTOM business activities this ODA Component is responsible for.

Identifier	Level	Business Activity Name	Description
1.1.11	2	Contact/Lead/Prospect Management	Develop the appropriate relationships with contacts, leads, and prospects with the intent to convert them to consumers, such as customers, or providers, such as partners, of an enterprise's offerings.
1.1.11.1	3	Manage Sales Contact	Manage all sales contacts between potential or existing parties and the enterprise.
1.1.11.2	3	Manage Sales Lead	Collect and administer a sales lead and the associated probabilities of the lead becoming a prospect.
1.1.11.3	3	Manage Sales Prospect	Match a sales prospect with the most appropriate products and ensure that a prospect is handled appropriately.
1.1.9	2	Selling	Responsible for managing prospective customers, for qualifying and educating customers, and matching customer expectations Managing prospective parties with whom an enterprise may do business, such as potential existing or new customers and partners, for qualifying and educating them, and ensuring their expectations are met.
1.1.9.1	3	Qualify Selling Opportunity	Ensure that a sales prospect is qualified in terms of any associated risk and the amount of effort required to achieve a sale.
1.1.9.3	3	Acquire Sales Prospect Data	Capture and record all pertinent sales prospect data required for qualifying an opportunity and for the initiation, realization and deployment of the agreed sales proposal.
1.1.7	2	Market Sales Support & Readiness	Market Sales Support & Readiness processes ensure the support capability is in place to allow the CRM Fulfillment, Assurance and Billing processes to operate effectively.
1.1.7.2	3	Support Selling	Administer and manage the operation of the various sales channels and to ensure that there is capability (for example, information,

Identifier	Level	Business Activity Name	Description
			materials, systems and resources) to support the Selling processes.
1.1.7.5	3	Manage Sales Accounts	Manage the sales accounts assigned to the sales channel on a day-day basis.

2.2. SID ABEs

SID ABEs this ODA Component is responsible for:

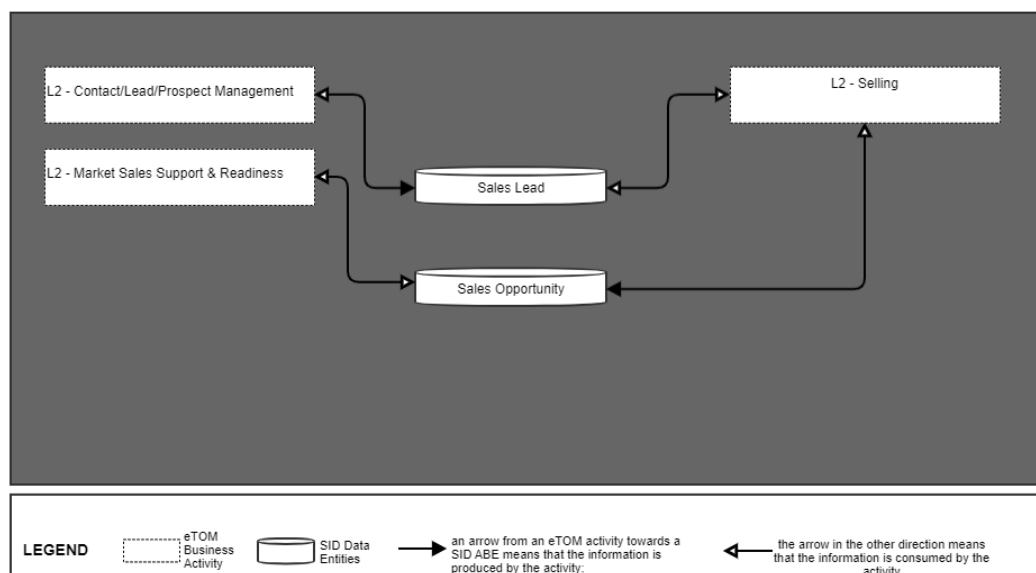

SID ABE Level 1	SID ABE Level 2 (or set of BEs)*
Sales Lead and Opportunity ABE	Sales Lead **
	Sales Opportunity **

*: if SID ABE Level 2 is not specified this means that all the L2 business entities must be implemented, else the L2 SID ABE Level is specified.

** Sales Lead and Sales Opportunity are currently BEs in Sales Lead and Opportunity ABE Level 1 but refer to SID JIRA asking to create 2 ABEs Level 2.

2.3. eTOM L2 - SID ABEs links

eTOM L2 vs SID ABEs links for this ODA Component.

2.4. Functional Framework Functions

Function ID	Function Name	Function Description	Sub-Domain Functions Level 1	Sub-Domain Functions Level 2
394	Sales Aids Support	Sales Aids Support provides job aids functions to access active aids like template or wizard types of context-aware scripting to e.g. aid lead qualification as an example.	Sales Management	Opportunity Management
372	Sales Opportunity Management	Sales Opportunity Management creates, manages and develop sales opportunities for customers.	Sales Management	Opportunity Management
375	Funnel Assigning	Funnel Assigning provides the necessary functionality to assign sales personnel to leads within a given funnel/pipeline.	Presales Management	Sales Lead Management
374	Funnel Creation	Funnel Creation provides the necessary functionality to create a new sales funnel or pipeline	Presales Management	Sales Lead Management
376	Funnel Leads Tracking	Funnel Leads Tracking provides the necessary functionality to track and manage the funnel process of the various leads and opportunities.	Presales Management	Sales Lead Management
726	Sales Lead Capturing	Sales Lead Capturing handles the generation of leads. A lead can be generated from many sources and customer interactions including the result of a targeted marketing campaign. Potential customer information is obtained from external sources or from internally generated data.	Presales Management	Sales Lead Management

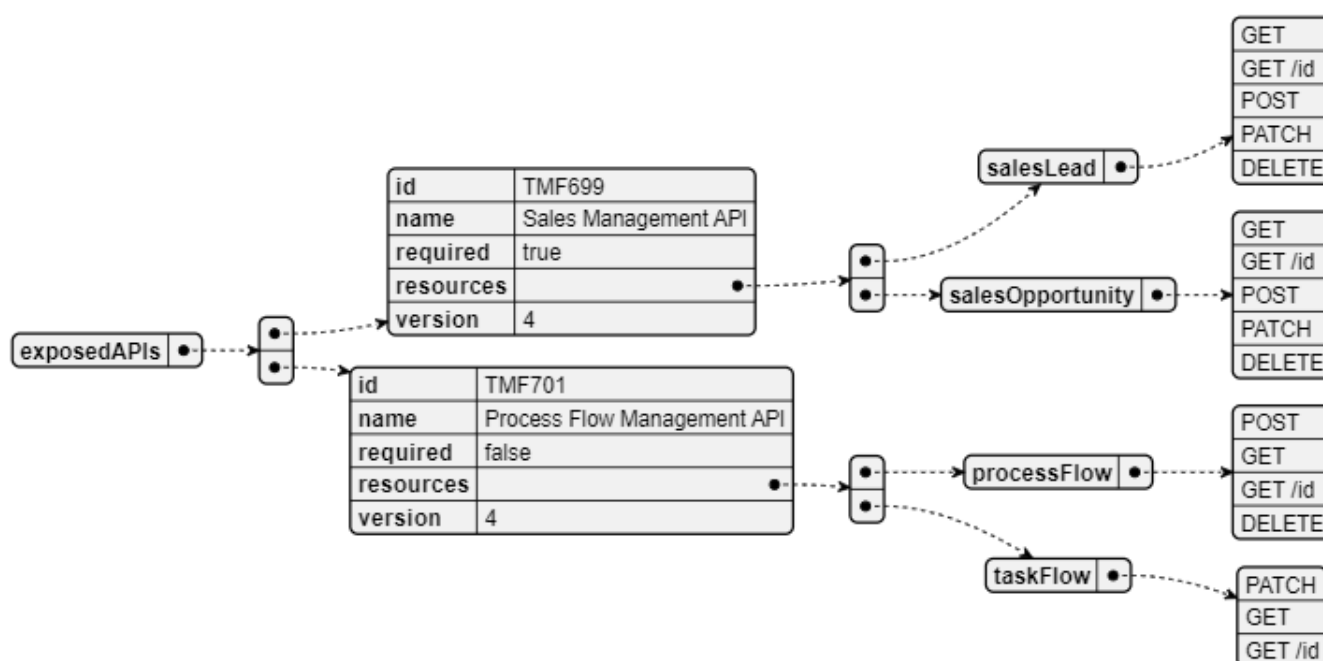

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; This part is split in 3:

- List of **Exposed APIs** - This is the list of APIs available from this component.
- List of **Dependent APIs** - In order to satisfy the provided API, the component could require the usage of this set of required APIs.
- List of **Events (generated & consumed)** - The events which the component may generate is listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. Exposed APIs

Following diagram illustrates API/Resource/Operation:

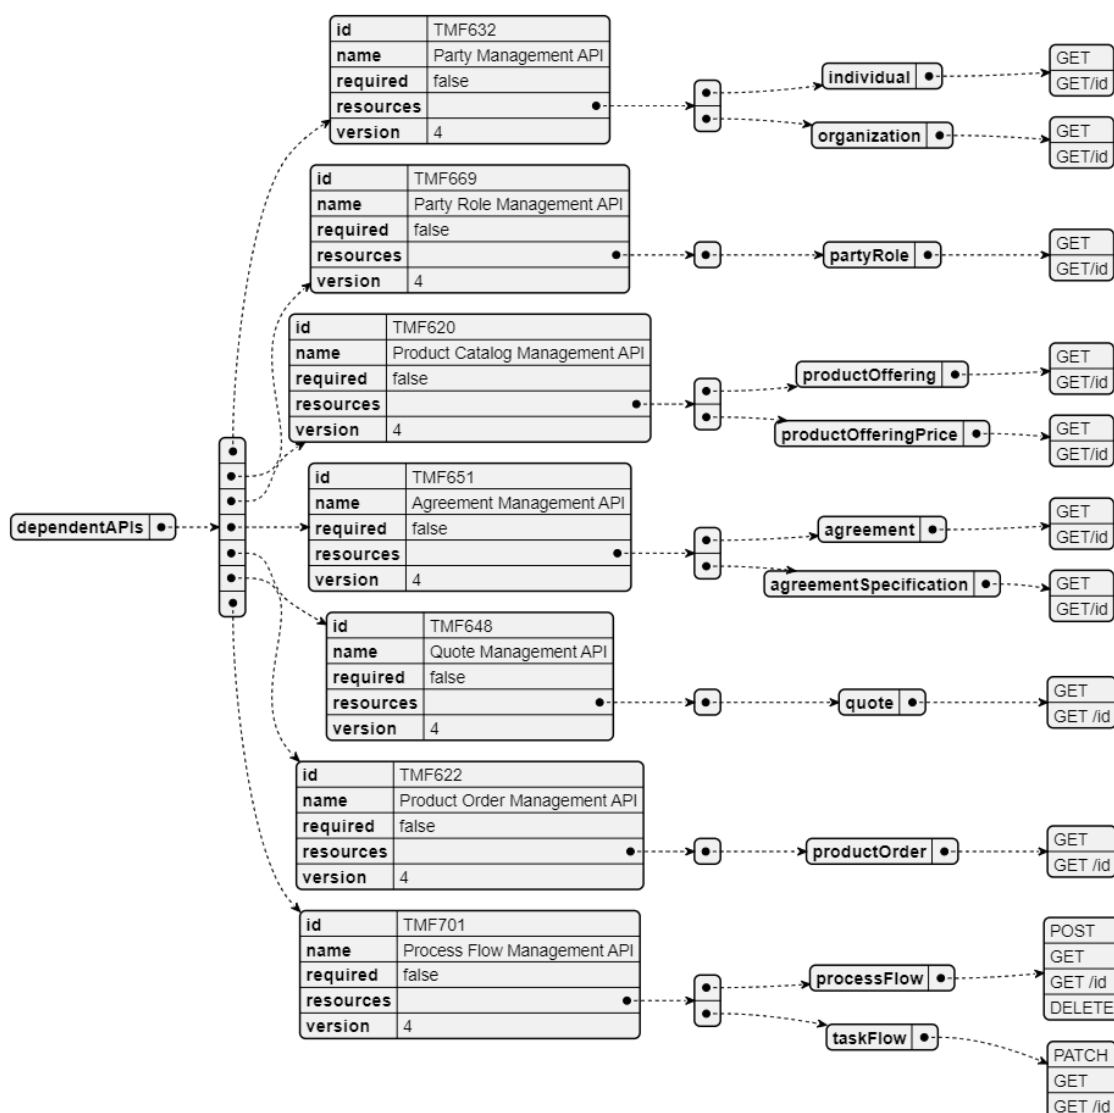

API ID	API Name	Mandatory / Optional	Operations
TMF699	Sales Management API	Mandatory	salesLead: - GET - GET /id - POST - PATCH - DELETE salesOpportunity: - GET - GET /id - POST - PATCH - DELETE

API ID	API Name	Mandatory / Optional	Operations
TMF701	Process Flow Management	Optional	processFlow: - POST - GET - GET /id - DELETE taskFlow: - PATCH - GET - GET /id
TMF688	Event Management	Optional	

3.2. Dependent APIs

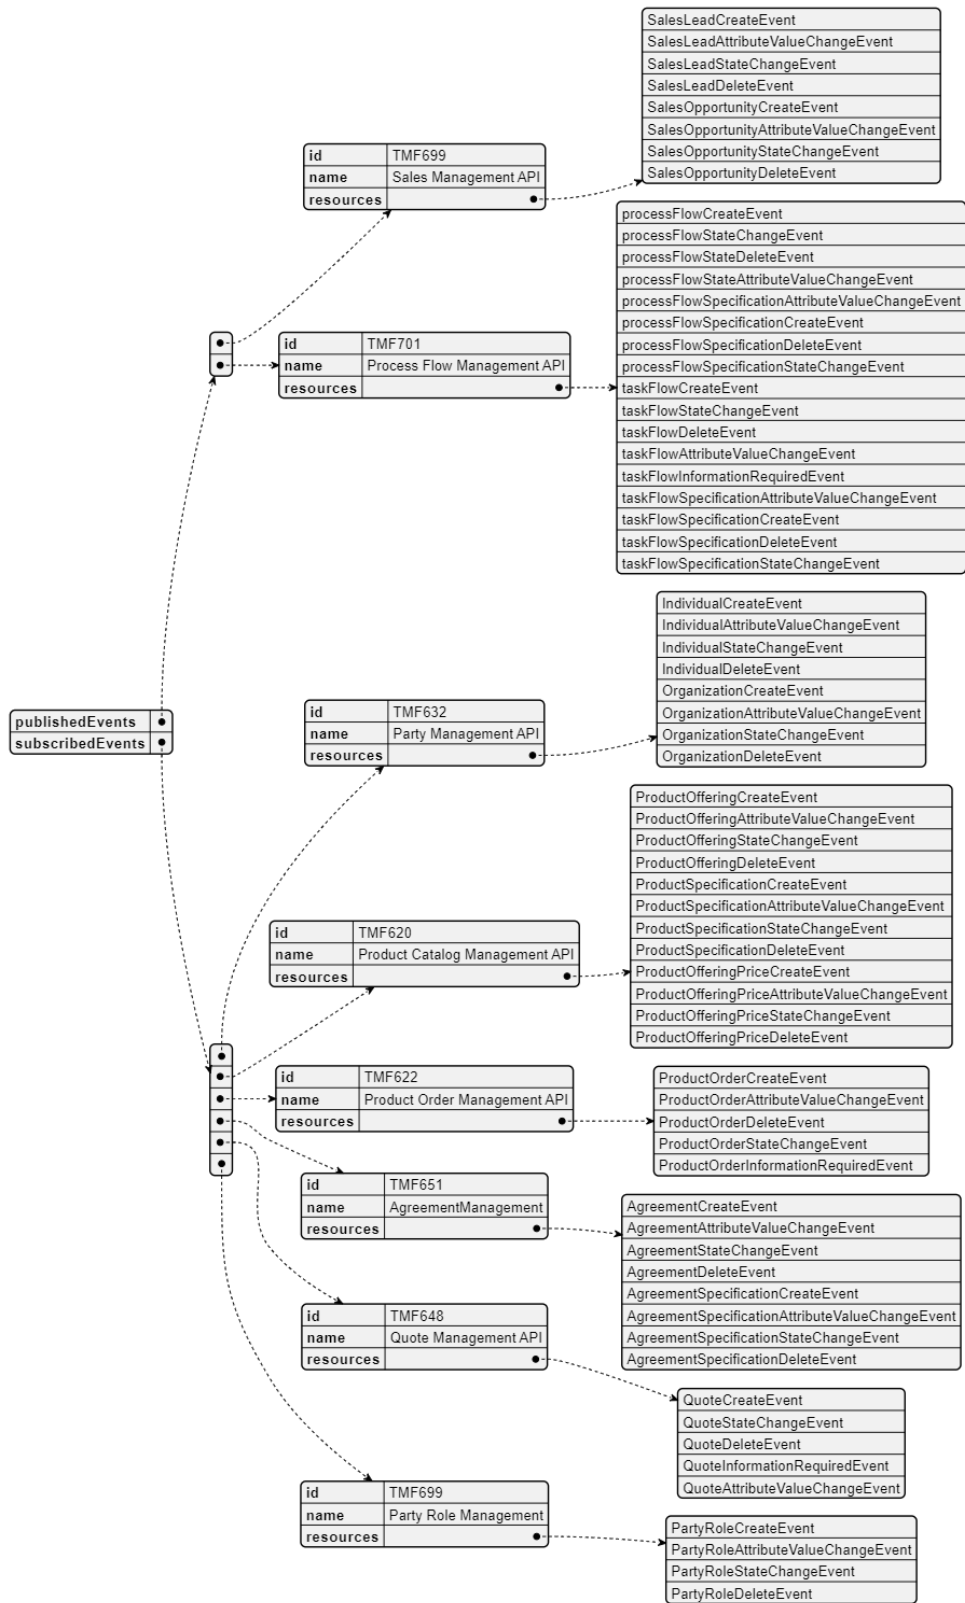

Following diagram illustrates API/Resource/Operation:

API ID	API Name	Mandatory / Optional	Operations	Rationales
TMF632	Party Management	Optional	individual: - GET - GET/id organization: - GET - GET/id	n/a
TMF620	Product Catalog Management	Optional	productOffering: - GET - GET/id productOfferingPrice: - GET - GET/id	n/a
TMF651	Agreement Management	Optional	agreement: - GET - GET/id agreementSpecification: - GET - GET/id	n/a
TMF648	Quote Management	Optional	quote: - GET - GET /id	n/a
TMF669	Party Role Management	Optional	partyRole: - GET - GET/id	n/a
TMF701	Process Flow Management	Optional	processFlow: - POST - GET - GET /id - DELETE taskFlow: - PATCH - GET - GET /id	n/a
TMF688	Event Management	Optional	Get, Get Id	
TMF622	Product Order Mgmt	Optional	productOrder: - GET - GET /id	n/a

3.3. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

4. Machine Readable Component Specification

Refer to the ODA Component Directory for the machine-readable component specification file for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
SID	24.0
eTOM	24.0
Functional Framework	24.0

5.2. Jira References

eTOM

[\[ISA-710\] 1.1.7.4 - Manage Sales Inventory to be reviewed - TM Forum JIRA](#) : As currently defined this inventory mixes information related to Lead and Opportunities Management (sales prospects) and information related to customer orders (actual sales, sales commissions). Do we really need eTOM activities for inventories management ? And if yes the scope here corresponds to historic CRM solutions we need to split in smaller pieces. So this L3 needs to be reviewed and at least duplicates entries need to be deleted, and granularity of information managed to be improved.

[\[ISA-711\] eTOM 1.1.9 - Selling to be reviewed - TM Forum JIRA](#): this L2 mixes activities related to Opportunity and Sales Prospects, but also others related to quotation (sales proposal) or product order initialization (cross/Up Sell, negotiate sales/contract). A clearer separation is needed.

SID

[\[ISA-712\] Sales Lead & Opportunity ABE improvements - TM Forum JIRA](#) :

- 2 level 2 ABEs could be created for Sales Lead and for Sales Opportunity
- a relationship between Sales Lead (resp. Sales Opportunity) and Customer Product Order could be added
- a relationship between Sales Opportunity and Agreement could also be added

Functional Framework

[\[ISA-713\] Functional Fk - review Sales Opportunity Aggregate Function content - TM Forum JIRA](#) : Most of the functions classified in this Aggregate Function are not related to Sales Opportunity but to quotation or customer product order, so they need to be moved - or deleted if duplicates.

Open APIs

TMF699 Sales Management API:

- This API covers Sales Lead and Sales Opportunity management. Sales quotation as announced in the introduction as covered later is in fact already covered (or should be) by TMF648 Quote Management
- In the resource model of This API the link between Sales Opportunity and Sales Quote BEs is missing.
- This API appears in the Early Adoption page only: we need it to be released soon.

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date Modified	Modified by:	Description of changes
1.0.0	13 Apr 2023	Amaia White	Final edits prior to publication
1.0.1	25 Jul 2023	Ian Turkington	No content changed, simply a layout change to match template 3.
1.0.1	15 Aug 2023	Amaia White	Final edits prior to publication
1.1.0	05 Aug 2024	Gaetano Biancardi	Applied new Component Template. Dependant API: removed: TMF688 Event Management Exposed API: removed: TMF688 Event Management
1.1.0	06 Sep 2024	Amaia White	Final edits prior to publication
1.2.0	18 Nov 2024	Gaetano Biancardi	API version, only major version to be specified
1.2.0	27 Dec 2024	Rosie Wilson	Final edits prior to publication

6.1.2. Release History

Release Status	Date Modified	Modified by:	Description of changes
Pre-production	13 Apr 2023	Amaia White	Initial Release
Pre-production	15-May-2023	Adrienne Walcott	Updated to Member Evaluated status.
Pre-production	15-Aug-2023	Amaia White	New release v1.0.1
Production	06-Oct-2023	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	06-Sept-2024	Amaia White	New release v1.1.0
Production			
Pre-production	27 Dec 2024	Rosie Wilson	New release v1.2.0
Production	07-Mar-2025	Adrienne Walcott	Updated to reflect TM Forum Approved status

6.2. Acknowledgements
