Copyright © TM Forum 2024. All Rights Reserved.

This document and translations of it may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation may be prepared, copied, published, and distributed, in whole or in part, without restriction of any kind, provided that the above copyright notice and this section are included on all such copies and derivative works. However, this document itself may not be modified in any way, including by removing the copyright notice or references to TM FORUM, except as needed for the purpose of developing any document or deliverable produced by a TM FORUM Collaboration Project Team (in which case the rules applicable to copyrights, as set forth in the [TM FORUM IPR Policy](#), must be followed) or as required to translate it into languages other than English.

The limited permissions granted above are perpetual and will not be revoked by TM FORUM or its successors or assigns.

This document and the information contained herein is provided on an “AS IS” basis and TM FORUM DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY THAT THE USE OF THE INFORMATION HEREIN WILL NOT INFRINGE ANY OWNERSHIP RIGHTS OR ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

TM FORUM invites any TM FORUM Member or any other party that believes it has patent claims that would necessarily be infringed by implementations of this TM Forum Standards Final Deliverable, to notify the TM FORUM Team Administrator and provide an indication of its willingness to grant patent licenses to such patent claims in a manner consistent with the IPR Mode of the TM FORUM Collaboration Project Team that produced this deliverable.

The TM FORUM invites any party to contact the TM FORUM Team Administrator if it is aware of a claim of ownership of any patent claims that would necessarily be infringed by implementations of this TM FORUM Standards Final Deliverable by a patent holder that is not willing to provide a license to such patent claims in a manner consistent with the IPR Mode of the TM FORUM Collaboration Project Team that produced this TM FORUM Standards Final Deliverable. TM FORUM may include such claims on its website but disclaims any obligation to do so.

TM FORUM takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this TM FORUM Standards Final Deliverable or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Information on TM FORUM's procedures with respect to rights in any document or deliverable produced by a TM FORUM Collaboration Project Team can be found on the TM FORUM website. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this TM FORUM Standards Final Deliverable, can be obtained from the TM FORUM Team Administrator. TM FORUM makes no representation that any information or list

of intellectual property rights will at any time be complete, or that any claims in such list are, in fact, Essential Claims.

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM business activities

eTOM business activities this ODA Component is responsible for.

Identifier	Level	Business Activity Name	Description

2.2. SID ABEs

SID ABEs this ODA Component is responsible for:

SID ABE Level 1	SID ABE Level 2 (or set of BEs)*
Party ABE	Permission Set Specification BE
	Permission Set BE
	Permission BE
	Party Role BE
	Party Roles Specification BE
Customer Party ABE	
Business Partner Party Role	
Enterprise Party Role	
Market Sales Party Roles ABE	
Service Party Roles ABE	
Resource Party Roles ABE	

*: if SID ABE Level 2 is not specified this means that all the L2 business entities must be implemented, else the L2 SID ABE Level is specified.

2.3. eTOM L2 - SID ABEs links

eTOM L2 vS SID ABEs links for this ODA Component.

2.4. Functional Framework Functions

Function ID	Function Name	Function Description	Aggregate Function Level 1	Aggregate Function Level 2
899	Single Sign-On Access Control	Single Sign-On Access Control grant access in cooperation with central Authentication and Authorization functions to secure the most updated security.	Identification and Permission Management	Identification and Authentication
906	PKI and Digital Certificates Systems Integration	PKI and Digital Certificates Systems Integration provides integration to Public Key Infrastructure Systems that provides digital certificates, and the support to use public keys and digital certificates.	Identification and Permission Management	Identification and Authentication
1025	Application Access	Application Access provide access interfaces with authentication and authorization control for the requests and responses related to the application's functionality, including event logging and usage statistics.	Identification and Permission Management	Identification and Authentication

Function ID	Function Name	Function Description	Aggregate Function Level 1	Aggregate Function Level 2
897	Building Access Control	Building Access Control checks, stops or allow physical access to facilities according to access roles and rules.	Identification and Permission Management	Permission Control
900	Authorization Control Management	Authorization Control Management sets and administrates the Role and Rule based access to functions.	Identification and Permission Management	Permission Control
898	Application Security Management	Application Security Management administrates the roles and rules that applies to getting the right to use an application.	Identification and Permission Management	Permission Definition
260	Anonymous User Account Creation	Anonymous User Account Creation provides account creation for anonymous user account, either through external customer self empowered fulfillment function or internal customer support access.	Identification and Permission Management	Digital Identity Management
1181	Party Role Assignment	n/a	Identification and Permission Management	Role and Permission Assignment / Configuration
1182	Permission Perimeter Configuration	n/a	Identification and Permission Management	Role and Permission Assignment / Configuration

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; This part is split in 3:

- List of **Exposed APIs** - This is the list of APIs available from this component.
- List of **Dependent APIs** - In order to satisfy the provided API, the component could require the usage of this set of required APIs.
- List of **Events (generated & consumed)** - The events which the component may generate is listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. Exposed APIs

Following diagram illustrates API/Resource/Operation:

API ID	API Name	API Version	Mandatory / Optional	Operations
TMF672	User Role Permission Management	4	Mandatory	GET Permission (Permission, UserRole) GET/id Permission POST Permission PATCH Permission DELETE Permission GET UserRole GET/id UserRole

API ID	API Name	API Version	Mandatory / Optional	Operations
				POST UserRole PATCH UserRole DELETE UserRole
TMF669	Party Role Management	4	Mandatory	GET partyRole GET/id partyRole POST partyRole PATCH partyRole DELETE partyRole
TMF701	Process Flow	4	Optional	n/a

3.2. Dependent APIs

Following diagram illustrates API/Resource/Operation potentially used by the product catalog component:

API ID	API Name	API Version	Mandatory / Optional	Operations	Rationales
TMF632	Party Management	4	Mandatory	GET individual / organization GET/ID individual / organization	All roles and identities need to be associated with a valid and current Party data object.
TMF701	Process Flow	4	Optional	na	

3.3. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

4. Machine Readable Component Specification

Refer to the ODA Component table for the machine-readable component specification file for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
SID	23.5 / 24.0
eTOM	23.5 / 24.0
Functional Framework	23.5 / 24.0

5.2. Jira References

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date Modified	Modified by:	Description of changes
1.0.0	11 Jan 2023	Matteo Destino	Initial draft for Party Role and Permissions Management Component
1.0.0		Amaia White	Final edits prior to publication
1.0.1	25 Jul 2023	Ian Turkington	No content changed, simply a layout change to match template 3.
1.1.0	27 Aug 2024	Hugo Vaughan	Links to Frameworks confirmed for 23.5. TMF688 removed from core specification.
1.1.0	06 Sep 2024	Amaia White	Final edits prior to publication of v1.1.0

6.1.2. Release History

Release Status	Date Modified	Modified by:	Description of changes
Pre-production	14 Jun 2023	Amaia White	Initial release of document
Pre-production	17-Jul-2023	Adrienne Walcott	Updated to Member Evaluated status
Pre-production	14 Aug 2023	Amaia White	New release v1.0.1
Production	06-Oct-2023	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	06 Sep 2024	Amaia White	New release 1.1.0
Production	01-Nov-2024	Adrienne Walcott	Updated to reflect TM Forum Approved status

6.2. Acknowledgements

This document was prepared by the members of the TM Forum Component and Canvas project team:

Team Member (@mention)	Company	Role*
Matteo Destino	Accenture	Editor
Gaetano Biancardi	Accenture	Reviewer
Emmanuel A. Otchere	Huawei	Additional Input
